

GOVERNMENT OF PUDUCHERRY
LOCAL ADMINISTRATION DEPARTMENT

A BRIEF NOTE ON AGENDA ITEMS FOR CIVIL REGISTRATION SYSTEM
TRAINING - 2016

The registration of Births and Deaths Act, 1969 and the rules framed under it, have been implemented on priority in this Union Territory. The registration functionaries are the backbone of the CRS and have an important role to play to keep the system running.

Total Number of _____ Births of which _____ Domiciliary Births and _____ Deaths were registered in 2015. The Birth rate for the year 2015 works out to be _____ while the Death Rate is _____ per thousand.

A New CRS has been developed by the Office of the Registrar General India, New Delhi, which links the usual procedure of CRS with National Population Register (NPR) and 8 Data Entry Operators has been established in our Union Territory of Puducherry to implement this software.

Based on the New CRS Software, the Data Entry works can be monitored at the Office of the Chief Registrar of Births and Deaths itself. And it is proposed to issue the Birth Certificates by using this software.

The CRS has three bold objectives namely

1. Legal
2. Administrative and
3. Statistical

Legal - Birth Registration records provide legal proof of place of Birth and date of birth, death registration record required for settlement of inheritance, insurance claims etc.,

Administrative - A Legal register of locality wise births and deaths
- Main source of information on mortality, causes of death, to facilitate health planning etc.

Statistical - Source of demographic data for socio-economic planning of health systems and population control.
-Data on fertility and mortality is essential in population growth and is used for population projections.

Lateset uses of CRS:

1. CRS Mobile Application has been introduced in android mobiles (.APK).
2. Births and Deaths can be downloaded using CRS website even public.
3. Registered Certificates can be verified by the Government agency / Education Institution / others.
